General

4

Sparebanken Sør is an independent financial institution that engages in banking, securities trading and real estate brokerage activities in the Norwegian counties of Aust-Agder, Vest-Agder, Telemark and Rogaland.

Real estate agency activities are conducted through the subsidiary Sørmegleren, while general insurance and life insurance products are supplied through Frende, an insurance company jointly owned by the bank. The bank is also a joint owner of Norne Securities, a securities trading company, and Brage Finans, a provider of leasing products and consumer credit.

Highlights in Q1 2019

- Good results from ordinary operations
- Positive development in net interest income
- Positive net income from financial instruments
- Acquisition of shares in Brage Finans AS
- Efficient operations and low costs
- Very low losses on loans
- Year-on-year loan growth of 4.3 percent
- Year-on-year deposit growth of 4.9 percent
- Return on equity after tax of 8.3 percent
- Common equity tier 1 capital ratio of 14.9 percent and leverage ratio of 9.0 percent

Financial framework conditions

The key interest rate increased on 20 March 2019 from 0.75 percent to 1.00 percent. The reason for the increase was the continued upturn in the Norwegian economy and the fact that the underlying inflation rate was close to the target of 2 percent. Norges Bank has indicated that there most likely will be a further upward adjustment in the key interest rate within the next 6 months.

Both domestic and foreign capital markets have worked efficiently, providing the Group with access to funding through covered bonds and senior debt in 2019. Credit spreads decreased slightly in Q1 2019.

Annual growth in the general public's gross domestic debt (C2) was 5.8 percent at the end of March 2019. Debt growth for house-holds and businesses was 5.6 percent and 5.8 percent respectively.

The Ministry of Finance decided to raise the requirement for a countercyclical capital buffer from 2.0 percent to 2.5 percent with effect from 31.12.2019. The increase is in line with the recommendation made by Norges Bank.

The Norwegian Financial Supervisory Authority (NFSA) proposed in October 2018 changes related to regulation and identification of systemically important financial institutions. The proposal indicates that Sparebanken Sør in the future will be considered systemically important. The proposal is currently under consideration and has not been finally adopted.

Earnings

The bank posted a profit before tax of NOK 305 million in Q1 2019, compared with NOK 315 million in the same period in 2018.

The Group's return on equity after tax was 8.3 percent in Q1 2019, compared with 9.1 percent in Q1 2018.

Net interest income

Quarterly net interest income (NOK million)

Net interest income totalled NOK 438 million in Q1 2019, compared with NOK 425 million in Q1 2018.

There has been pressure on lending margins in Q1 2019, especially in the retail market, as a result of an increase in NIBOR. The effect of increased market interest rates was less in the corporate market, where a large proportion of the loans are linked to NIBOR. Increase in market interest rates has also resulted in increased funding costs during the quarter.

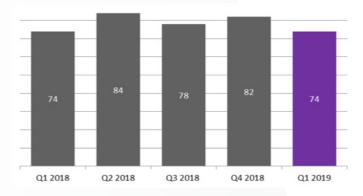

Following the rise in the key interest rate in March 2019, the Group raised the interest rate on loans and some deposits. The change will take full effect from 7 May 2019.

Net interest income as a percentage of average total assets in Q1 2019 was 1.46 percent, down from 1.49 percent in the same period in 2018.

*Net interest income adjusted for accounting changes, commission income, other income and cost-adjusted for conversion of the pension scheme. See also the appendix for details of calculation.

Commission income

Quarterly net commission income (NOK million)

Net commission income totalled NOK 74 million in Q1 2019, compared with NOK 74 million in Q1 2018.

Gross commission income in Q1 2019 totalled NOK 88 million, compared with NOK 87 million in Q1 2018.

Commission income	Q1 2019	Q1 2018	Change
Payment services	41	40	1
Real estate brokerage	28	21	7
Other commission income	19	26	-7
Total	88	87	

There has been increased income from payment services and real estate brokerage. There has been a reduction in other commission income. This is mainly due to a non-recurring transfer of NOK 5 million linked to commission from the sale of life insurance in Q1 2018.

Financial instruments

Net income from financial instruments totalled NOK 20 million in Q1 2019, compared with NOK 26 million in the same period in 2018.

Net income from financial instruments	Q1 2019	Q1 2018	Changes
Bonds and certificates	10	4	6
Shares incl. dividends	8	-1	9
Fixed rate loans	3	15	-12
Securities issued - hedge accounting	2	3	-1
Repurchase of issued bonds	-9	-2	-7
Other financial instruments	6	7	-1
Total	20	26	-6

Credit spreads in the bond market showed a slight decrease in Q1, resulting in positive changes in value of the bank's liquidity portfolio.

On 31 January Sparebanken Sør entered into an agreement to purchase 4.34 percent of the shares in Brage Finans AS. In addition, an issue was carried out in February 2019, where the bank increased its ownership in the company by 0.9 percent. At the end of the first quarter, Sparebanken Sør holds a stake of 20.8 percent in Brage. After the year's transactions, the bank has changed the classification of the investment in Brage from fair value, to the equity method. The aquisition and reclassification resultet in an accounting gain of NOK 8 million.

The accounting effects linked to hedge accounting are mainly caused by changes in the value of basis swaps. Basis swaps are used to hedge fixed-rate debt issued in euros. The value of basis swaps fluctuates due to market changes, and the fluctuations are recognised in the income statement. These are hedging instruments, and assuming the underlying bonds are held to maturity, the change in market value over the term of the instruments is zero.

7

Associated companies

Share of profit from associated companies was NOK 3.8 million in Q1 2019.

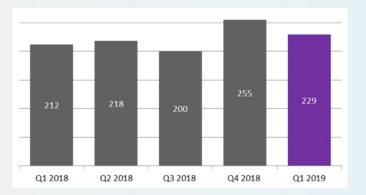

In Q1 2019 Sparebanken Sør increased its share holdings in Brage Finans AS from 15.5 percent to 20.8 percent. Sparebanken Sør's share of profit was NOK 5.5 million

Sparebanken Sør's share of profit from Frende Holding AS amounted to NOK 3.3 million in Q1 2019. This included share of profit for the first quarter as well as an adjustment related to the 2018 accounts.

In connection with the purchase of shares in Frende Holding AS in 2018, excess values were identified which should be amortized over the expected lifetime. The Group has depreciated the excess value by NOK 5 million in the first quarter of 2019.

Operating expenses

Quarterly operating expenses (NOK million)

Operating expenses closed on NOK 229 million in Q1 2019, compared with NOK 212 million in the same period in 2018.

Total operating expenses as a percentage of average assets were 0.76 percent (0.75 percent) in Q1 2019. Cost-income ratio was 42.6 percent in the Group (40.2 percent). The cost-income ratio, excl. financial instruments, was 44.2 percent (42.3 percent).

Operating expenses in the banking business closed on NOK 199 million in Q1 2019, compared with NOK 187 million in the same period in 2018. The increase of NOK 12 million is divided into increased wage costs and increased depreciation, both as a result of strategic initiatives.

The bank has also changed practice related to payroll payments. Earlier, 1.5 monthly wages were paid in December. As of January 1, 2019, equal pay is paid each month. This gives an increase in the wage cost in Q1 of NOK 3 million. The change will result in a correspondingly lower wage cost in Q4.

The bank expects operating expenses in 2019 to be at the same level as in 2018.

Losses and non-performing loans

Net losses on loans totalled NOK 3 million in Q1 2019, equivalent to 0.01 percent of net loans. Net losses on loans totalled NOK 0 million in the same period in 2018.

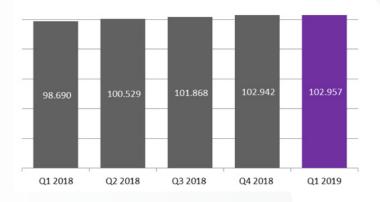

The Group's impairment losses were calculated at NOK 474 million in Q1 2019, which is equivalent to 0.46 percent of gross loans. The corresponding figures for 2018 were NOK 562 million and 0.55 percent of gross loans.

Gross non-performing loans more than 90 days in arrears totalled NOK 214 million, which is equivalent to 0.21 percent of gross loans. This is a significantly lower than Q1 2018, which amounted to NOK 321 million and 0.32 percent respectively.

8

Loans

Loans NOK million

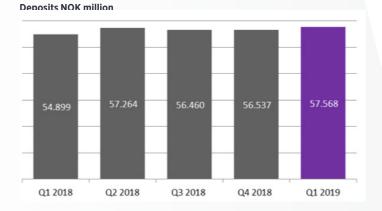

Over the past 12 months net loans increased by NOK 4.3 billion to a total of NOK 102.9 billion, representing a growth of 4.3 percent.

Loan growth in Q1 was only NOK 15 million. There has been a reduction in lending to corporate customers during the quarter. This is because the bank has been somewhat hesitant as a result of continued uncertainty related to future capital requirements from The Ministry of Finance's proposals relating to systemically important banks.

Over the past 12 months, gross loans to retail customers rose by NOK 3.5 billion to NOK 67.9 billion, a rate of growth of 5.4 percent. Lending growth is somewhat lower than the general public`s gross domestic debt.

Gross loans to corporate customers rose by NOK 0.7 billion to NOK 35.3 billion over the last 12 months, representing a rate of growth of 2.0 percent.

Loans to retail customers accounted for 66 percent (65 percent) of total loans at the end of Q1 2019.

Deposits

Over the past 12 months, customer deposits rose by NOK 2.7 billion to NOK 57.6 billion, a growth rate of 4.9 percent.

Deposits from retail customers increased by NOK 1.2 billion to NOK 27.1 billion, a growth rate of 4.5 percent.

Deposits from corporate customers rose by 1.5 billion to NOK 30.3 billion, a growth rate of 5.2 percent.

Deposits in percent of net loans were 55.9 percent at the end of Q1 2019, down from 56.6 percent at the same time in 2018.

Wholesale funding and liquidity portfolio

The Group's liquidity situation is satisfactory. The liquidity buffers are adequate and the maturity structure of the funding is well-adjusted to the needs of the business. New long-term funding is established through the issuance of covered bonds and senior debt. The Group has also arranged for long-term financing from the international market through established EMTN programs.

At the end of Q1 2019, wholesale funding amounted to NOK 49.6 million, of which 67 percent was sourced through covered bonds and 93 percent through long-term financing.

The Group's portfolio of interest-bearing securities totalled NOK 17.0 billion at the end of Q1 2019. At the same date, the Group's liquidity reserves (LCR) were 180 percent (Parent Bank: 168 percent).

Rating

Sparebanken Sør has an A1 rating with "negative outlook". The rating outlook was adjusted from "stable" to "negative" in July 2017 following the introduction of the EU Bank Recovery and Resolution Directive (BRRD) for Norwegian banks, and has been applied to five regional banks.

All covered bonds issued by Sparebanken Sør Boligkreditt AS also have a triple-A (Aaa) rating from Moody's.

Subordinated capital and capital adequacy

At the end of Q1 2019, net subordinated capital totalled NOK 13.3 billion, while hybrid capital was NOK 1.1 billion and subordinated loans totalled NOK 1.6 billion. At the same date, the common equity tier 1 (CET1) capital ratio was 15.1 percent; the tier 1 capital ratio was 16.6 percent and the (total) capital ratio for the Sparebanken Sør Group was 18.8 percent (based on Basel II).

Sparebanken Sør has a 20.8 percent shareholding in Brage Finans and accordingly, has consolidated a proportion of its cooperative companies when calculating the capital ratio. The common equity tier 1 capital ratio, including the Group's partner companies, amounts to 14.9 percent. The tier 1 capital ratio is 16.4 percent and the (total) capital ratio is 18.5 percent.

For the Parent Bank, the figures at the end of Q1 2019 were a CET1 capital ratio of 15.4 percent, a tier 1 capital ratio of 17.1 percent and a (total) capital ratio of 19.6 percent.

In July 2018, the bank received the Financial Supervisory Authority's assessment and decision regarding the Pillar 2 requirements. The assessment was made in conjunction with the capital appreciation process (SREP) for 2018, and the Pillar 2 requirement for Sparebanken Sør was set at 2.0 percent of the risk-weighted assets. This requirement is related to an assessment of risk factors not covered by the Pillar 1 requirements, and also includes a new method of calculating capital requirements associated with partly owned insurance companies. The capital requirement relating to the shareholding in Frende Holding AS alone accounts for 0.3 percentage points.

The Group met the respective capital requirements for financial institutions of 14.0 percent for common equity tier 1 capital, 15.5 percent for tier 1 capital and 17.5 percent for (total) capital.

The Group stated a target of achieving a CET1 capital ratio of 14.8 percent. The Ministry of Finance decided in December 2018 to increase the countercyclical capital buffer by 0.5 percent with effect from 31 December 2019. The Group will adjust to the new requirements during 2019. Further adjustment of the buffer beyond the current level will depend on market expectations.

One of the bank's key goals is to achieve a CET1 capital ratio at least equal to comparable banks. Sparebanken Sør is the only one of the major regional banks to apply the standard method in calculating capital adequacy. Sparebanken Sør decided to initiate a process to request approval from Finanstilsynet to apply the internal ratings-based approach (IRB). The bank aims to submit the application by the end of 2020.

At the end of Q1 2019, the Group's leverage ratio was 9.0 percent, compared with 9.1 percent at the end of Q1 2018. The bank's capital is considered highly satisfactory.

The bank's equity certificates

As of 31 March 2019, the bank had issued 15 663 944 equity certificates. Profit (Group) per equity certificate was NOK 2.4 in Q1 2019. The ownership ratio in Q1 2019 was 17.2 percent. Hybrid capital classified as equity has been excluded when calculating the ownership ratio.

Dividends

Sparebanken Sør aims to ensure that its equity certificate owners achieve a competitive return in terms of dividends and returns on their equity certificates as a result of sound, stable and profitable operations.

Surpluses are distributed between the equity certificate capital (equity certificate owners) and the subordinated capital in accordance with the owner's share of equity.

In determining the annual dividend, Sparebanken Sør takes into account the bank's capital requirements, including regulatory requirements, investors' expectations and the bank's strategic plans.

The bank aims to distribute approximately half of the equity certificate holders' share of earnings after tax as dividend.

Subsidiaries and partner businesses

The bank's wholly owned subsidiary **Sparebanken Sør Boligkreditt AS** is licensed to issue covered bonds which are used as an instrument in the bank's long-term funding strategy. As of 31 March 2019, the bank had transferred NOK 38.9 billion to Sparebanken Sør Boligkreditt AS, equivalent to 56 percent of all loans to the retail market.

Sørmegleren is the bank's own real estate agency and the leading estate agency business in southern Norway. The agency continues to grow, as of 31. march 2019 the number og FTE's totalled 80 in 16 locations. Sørmegleren delivered positive results in 2018. The result after Q1 2019 showed a loss of NOK 2.8 million before tax, at the same level as Q1 2018.

Frende Holding AS (20.2 percent shareholding) is the parent company of Frende Skadeforsikring AS and Frende Livsforsikring AS, which provide general insurance and life insurance to retail and corporate customers.

In Q1 2019, Frende Holding AS posted a profit of NOK 43.7 million (-47.9 million) before tax. The technical result in Q1 2019 was almost as expected for the season. Total growth in risk premium was almost 11 percent in the last twelve months. Return on finance was NOK 91 million (NOK 9.4 million), a return of 2.1 percent (0.26 percent).

In Q1 2019 **Frende Skade** posted a profit before tax of NOK 16.8 million (- 66.2 million). The company possesses a total portfolio of insurances of NOK 2 046 million (1 837 million), broken down by 165 000 customers. This represents an increase of 11.4 percent the last year. The market share increased to 3.5 percent by the end of 2018.

The loss ratio was 91.1 percent in Q1 2019 (96.8 percent), and the combined ratio was 109.7 percent (116.7 percent). The first quarter was characterized by many large burns, while the injury frequency and average damage had a positive development compared to last year.

Frende Liv posted a profit before tax of NOK 31.5 million (NOK 18.8 million) in Q1 2019. The company provides good risk results and shows a positive cost development. The total insurance portfolio at the end of Q1 2019 was NOK 947 million (860 million).

Brage Finans AS (20.8 percent shareholding) is a financing company that offers leasing and loans secured by the purchased objects in the corporate and retail market. The company headquarter is located to Bergen and there are branches in Ålesund, Stavanger and Kristiansand. Distribution of the products is provided mainly through owner banks and retailers, in addition to the company's own organisation.

In Q1 2019 Brage Finans AS (Brage) posted a profit before tax of NOK 33.8 million, compared to NOK 19.2 million in the same period last year. The profit growth was as high as 76 percent. The result was equivalent to a return on equity of 7.9 percent compared with 6.7 percent in Q1 2018.

11

At the end of Q1 2019, Brage Finans had a gross loan portfolio of NOK 9.91 billion, an increase of NOK 2.99 billion (43 percent) compared with Q1 2018.

In Q1 2019 the growth in costs (in percent) has been lower than the growth in income (in percent). As a consequence the expence ratio showed 35 percent in Q1 2019, compared to 39 percent in Q1 2018.

Norne Securities AS (17.6 percent shareholding) is an investment firm offering online trading, traditional brokerage and corporate finance services.

Norne further enhanced its role as Norway's leading adviser and facilitator regarding equity certificates in Norwegian saving banks. The company has further concentrated its business in two market areas: online stock and fund trading related to the retail market, and Corporate Finance and Investment Advice to the corporate market and professional investors.

Balder Betaling AS (22 percent shareholding) is owned by Sparebanken Sør together with the 14 other savings banks. The company has a 10.5 percent shareholding in Vipps AS and aims to develop the Vipps mobile payment application further together with its other shareholders.

Outlook

The Board of Directors is satisfied with the Group's financial performance in Q1 2019. There has been pressure on lending margins over time. Measures that have been implemented, through the announced interest rate change, will first have effect in the second quarter. The bank is well positioned to attain good results in 2019. The prospects for the Norwegian economy and for Sparebanken Sør in the near future seem good.

Housing prices in the bank's main markets have shown a positive, but modest trend for several years. The Q1 2019 statistics showed slightly positive growth in housing prices in the bank's market area. Mortgage loans on housing are well secured, and the Group is well positioned to absorb any fall in house prices. This view is also supported by the stress tests that have been carried out.

On 20 March 2019 Norges Bank decided to raise the key interest rate from 0.75 percent to 1.00 percent. The central bank's forecasts indicate that the key interest rate will be raised further during the next 6 months, and that the key rate will then be increased to 1.75 per cent by the end of 2022.

The Group's common equity tier 1 capital requirement, including the new Pillar 2 add-on of 2.0 percent, is 14.0 percent. With effect from 31 December 2019 the Ministry of Finance decided in December 2018 to increase the countercyclical capital buffer by 0.5 percent, and the Group's common equity tier 1 capital requirement will rise to 14.5 percent. The Group has a target of achieving a CET1 capital ratio of 14.8 percent, before the increase in countercyclical capital buffer. In 2019, The Board of Director's will carry out a process related to future capital targets, where requirements for countercyclical capital buffer will be taken into account. If the proposed regulations for the identification of systemically important financial institutions are adopted, this will be taken into account when determining a new capital target. At the end of Q1 2019 the CET1 capital ratio was 14.9 percent.

In October 2018 the Financial Supervisory Authority's proposed changes to the Ministry of Finance changes relating to regulation and identification of systemically important financial institutions. The proposal indicates that Sparebanken Sør in future will be considered systemically important, and as a result the CET1 capital requirements will probably increase. The Ministry of Finance has had the draft regulation for consultation, but it is not yet known whether and, if so, how the regulation will be implemented.

The Group has a long-term ambition of a growth in lending in excess of credit growth, and has set a target return on equity of 9 percent.

With effect from 1 January 2018, the Group has applied the new IFRS 9 standard, which has impacted calculation of the Group's impairment losses on loans. The Group has to make provisions for expected loan losses and this is expected to result in greater fluctuations in loan losses going forward. Based on the composition of the bank's loan portfolio, economic trends and local market conditions, net losses are expected to remain low in 2019.

In line with its strategic focus on costs and long-term value creation, the bank will continue to invest in technology in order to contribute to cost-effective operations and streamlining of the branch structure. This, together with high quality in customer

credit assessments, will contribute to the continued profitable growth and development of Sparebanken Sør.

Events after the reporting period

No events have been reported since 31 March 2019 that affect the quarterly financial statements.

1. ACCOUNTING POLICIES

The financial statements have been prepared in accordance with International Standards for Financial Reporting (IFRS), including IAS 34. Unless otherwise specified, the accounting policies applied are the same as those applied in the annual financial statements for 2018.

The bank changed the accounting principle for leases on 1 January 2019, where IFRS 16 leases have replaced IAS 17 leases. Refer to Note 40 of the 2018 annual financial statements for more detailed descriptions of the accounting effects of the transition to the new standard.

There are no other new standards applicable for 2019 that have had a material impact on the financial statements.

The ordinary tax rate of 25 percent has been used to calculate tax payable.

10. FAIR VALUES OF FINANCIAL INSTRUMENTS

Classification of financial instruments

Financial instruments are classified at different levels.

Level 1:

Includes financial assets and liabilities measured using unadjusted observable market values. This includes listed shares, derivatives traded via active marketplaces and other securities with quoted market values.

Level 2:

Instruments measured using techniques in which all assumptions (all inputs) are based on directly or indirectly observable market data. Such values may be obtained from external market players or reconciled against external market players offering these types of services.

Level 3:

Instruments measured using techniques in which at least one essential assumption cannot be supported by observable market values. This category includes investments in unlisted companies and fixed-rate loans where no required market information is available.

For a more detailed description, see Note 22 Fair value of financial instruments in the 2018 annual financial statements.

Financial derivatives	278	217	228	-28	197	118
Liabilities						

(1) Includes assets and liabilities where the bank and the Group have recognised their financial derivatives net for each individual counterparty.

The bank and the Group's counterclaim rights comply with prevailing Norwegian law. The bank and Sparebanken Sør Boligkreditt AS have the right to offset other outstanding balances through ISDA agreements if certain events occur. The amounts have not been offset in the balance sheet because the transactions are generally not settled on a net basis.

Tot	al - 10 largest certificate holders	10 838 423	69.19	Total - 20 largest certificate holders	11 738 447	74.94

As of 1 January 2019, the weighted average ownership ratio was 17.2 percent. Hybrid capital classified as equity has been excluded when calculating the ownership ratio.

At the reporting date, Sparebanken Sør owned 5 168 of its own equity certificates. The equity certificate capital amounted to NOK 783 197 200 distributed over 15 663 944 equity certificates, each with a nominal value of NOK 50.

Risk and capital management

The Group's risk management procedures ensure that the Group's risk exposure is known at all times and are instrumental in helping the Group to achieve its strategic objectives and comply with legal and regulatory requirements. Governing targets are established for the Group's overall risk level and each specific risk area, and systems are in place to calculate, manage and control risk. The aim of capital management is to ensure that the Group has an acceptable tier 1 capital ratio, is financially stable and achieves a satisfactory return commensurate with its risk profile. The Group's total capital ratio and risk exposure are monitored through periodic reports.

Credit risk

Credit risk is defined as the risk of loss due to customers or counterparties failing to meet their obligations. One of the key risk factors relating to Sparebanken Sør's operations is credit risk. Future changes in the bank's losses will also be impacted by general economic trends. This makes the granting of credit and associated processes one of the most important areas for the bank's risk management.

Credit risk is managed through the Group's strategy and policy documents, credit routines, credit processes, scoring models and authority mandates.

Market risk

Market risk generally arises from the Group's unhedged transactions in the interest rate, currency and equity markets. Such risk can be divided into interest rate risk, currency risk, share risk and spread risk, and relates to changes in results caused by fluctuations in interest rates, market prices and/or exchange rates. The Board of Directors establishes guidelines and limits for managing market risk.

Liquidity risk

Liquidity risk relates to Sparebanken Sør's ability to finance its lending growth and fulfil its loan obligations subject to market conditions. Liquidity risk also includes risk of the financial markets that the Group wishes to use ceasing to function. The Board of Directors establishes guidelines and limits for the management of liquidity risk.

Operational risk

Operational risk is defined as the risk of losses resulting from inadequate or failing internal processes, procedures or systems, human error or malpractice, or external events. Examples of operational risk include undesirable actions and events such as IT systems failure, money laundering, corruption, embezzlement, insider dealing, fraud, robbery, threats against employees, breaches of authority and breaches of established routines, etc.

Business risk

Business risk is defined as the risk of unexpected fluctuations in revenue based on factors other than credit risk, liquidity risk, market risk and operational risk. This risk could, for example, derive from regulatory amendments or financial or monetary policy measures, including changes in fiscal and currency legislation, which could have a negative impact on the business.

All risk at Sparebanken Sør must be subject to active and satisfactory management, based on objectives and limits for risk exposure and risk tolerance established by the Board of Directors.

The Board of Directors' report and accounting presentations refer to certain adjusted figures which are not defined by IFRS (Alternative Performance Measures – APM). For definitions of Sparebanken Sør's APM, please refer to next section.

34 Alternative performance measures – APM

Sparebanken Sør's alternative performance measures (APMs) provide useful information which supplements the financial statements. These measures are not defined under IFRS and may not be directly comparable with other companies' adjusted measures. The APMs are not intended to replace or overshadow any IFRS measures of performance, but have been included to provide a better picture of Sparebanken Sør's underlying operations.

Key financial ratios regulated by IFRS or other legislation are not considered APMs. The same is true of non-financial information. Sparebanken Sør's APMs are presented in the key figures for the Group, in the calculations and in the Board of Directors' report. APMs are shown with comparable figures for earlier periods. All APMs referred to below have been applied consistently over time.

Sparebanken Sør's APMs and definitions

Measure	Definition
Return on equity (ROE)	ROE provides relevant information on Sparebanken Sør's profitability by measuring the ability to generate profits from the shareholders' investments. ROE is one of the Group's most important financial APMs and is calculated as: Profit after tax for the period (adjusted for interest on hybrid capital) divided by average equity (adjusted for hybrid capital).
Book equity per	This key figure provides information on the value of book equity per equity certificate. This enables the reader
equity certificate	to assess the reasonableness of the market price of the equity certificate. Book equity per equity certificate is
(including dividend)	calculated as the equity certificate holders' share of the equity (excluding hybrid capital) at the end of the period divided by the total number of outstanding certificates.
Profit / diluted	This key figure provides information on the profit/diluted earnings per equity certificate in the period. Profit per
earnings per equity	equity certificate is calculated by multiplying profit after tax by the equity certificate ratio, divided by the number
certificate	of equity certificates issued. Diluted earnings per equity certificate is calculated by multiplying majority interests by
	the equity certificate ratio, divided by the number of equity certificates issued.
Growth in loans as %, last 12 months	Growth in lending over the last 12 months is a performance measure that provides information on the level of activ- ity and growth in the bank's lending business. The bank uses Sparebanken Sør Boligkreditt (SSBK) as a source of funding, and this key figure includes loans transferred to SSBK since this better reflects the relevant comparable level of growth. Lending growth is calculated as gross loans incl. loans transferred to SSBK at period-end minus gross loans incl. loans transferred to SSBK as at the same date in the previous year, divided by gross loans incl. loans transferred to SSBK as at the same date in the previous year.
Growth in deposits as	Growth in deposits over the last 12 months provides information on the level of activity and growth in the bank's
%, last 12 months	financing of lending activities that is not established in the financial market. Deposit growth is calculated as total deposits at period-end minus total deposits at the same date in the previous year, divided by total deposits at the
0	same date in the previous year.
Cost/income ratio	This ratio is included to provide information on the correlation between income and expenses and is considered to
(Expenses as % of income)	be one of Sparebanken Sør's most important performance measures. It is calculated as total operating expenses divided by total income.
Price/book equity per equity certificate	This measure is used to compare the company's current market price to its book value. It is frequently used to compare banks and is calculated as Sparebanken Sør's closing equity certificate price at the end of the period divided by the book value per equity certificate.
Losses on loans as % of net loans (annualised)	This key figure indicates losses on loans as a percentage of net loans. It is calculated as losses on loans (includ- ing losses on loans transferred to SSBK) divided by net loans (including loans transferred to SSBK) at period-end. Where information is disclosed on loan-loss ratios for periods shorter than one year, the ratios are annualised.
Gross non-performing	This ratio provides relevant information on the bank's credit exposure. It is calculated as total non-performing
loans (over 90 days) as % of gross loans	exposure (over 90 days) divided by total loans, including loans transferred to SSBK, at period-end.
Lending margin	Measures the group's average margin on loans, calculated as average lending rate in the period less average
(CM and RM)	3-month NIBOR for the period. The average lending rate is calculated as interest income from loans to customers
	divided by average loans to customers in the period.
Deposit margin	Measures the group's average margin on deposits, calculated as the average 3-month NIBOR in the period less
(CM and RM)	average deposit rate in the period. The average deposit rate is calculated as interest expense on customer deposits
*****	divided by average deposits from customers n the period.
Average lending rate	See Lending margin (CM and RM) above
Average deposit rate	See Deposit margin (CM and RM) above
